(*) The chart doesn't include any of the Carrier-Route rates

(**) Max: 13 oz.

- Postal sizes:
- Card-size: min 3-1/2"x 5"x .007" and max 4-1/4"x 6"x .016"
 - Letter-size: max 6-1/8"x 11-1/2"x 1/4" and respect the Aspect Ratio (length divided by height) to be between 1.3 and 2.5
 - Flat-size: larger than either letter-size dimensions (for most mail), but max 15"x 12"x 3/4"

Other terms:

1. "Automated": includes a barcode for postal machine automation
2. "Machineable": follows postal regulations for automation but is not barcoded.
3. "Non-machineable": a mail that might not qualify for being ran on postal machines due to size, thickness, rigidity, flexibility, color, or content.
4. "Lowest Rate" would be for mailing addresses with high concentration in a geographic area; "Highest Rate" would be for a broader area. There is possibility of even lower rates for very local mailings.

NOTE: This chart is strictly a reference rate sheet; rates have been rounded up to 3 decimals; many postal regulations needs to be followed to meet specific rates; no guarantee is hereby giving.
